

CURRICULUM VITAE

SÓNIA DIAS

1. PERSONAL DATA

Name: Sónia Dias

Nationality: Portuguese

Institutional affiliation: Instituto de Higiene e Medicina Tropical, Universidade Nova de Lisboa

Telm:+351 967058421; **E-mail:** sfdias@ihmt.unl.pt; smfdias@yahoo.com

2. ACADEMIC BACKGROUND

2006: PhD in International Health, Instituto de Higiene e Medicina Tropical, Universidade Nova de Lisboa

2003: Diplome of Post-Graduate Course in International Health, Instituto de Higiene e Medicina Tropical, Universidade Nova de Lisboa

1998: Degree in Psychology, Faculdade de Psicologia e de Ciências da Educação, University of Lisbon

3. RELEVANT ACADEMIC/ SCIENTIFIC/ PROFESSIONAL ACTIVITIES

Principal Investigator of the thematic line “Health Challenges of Travelers and Migrants, Research Unit “Global Health and Tropical Medicine” - Fundação para a Ciência e a Tecnologia (since 2015)

Director of the PhD in “International Health”, Institute of Hygiene and Tropical Medicine, Universidade Nova de Lisboa (since 2015)

Director of the International Public Health and Biostatistics Unit, Institute of Hygiene and Tropical Medicine, Universidade Nova de Lisboa (2012-2015)

Associate Professor in Institute of Hygiene and Tropical Medicine, Universidade Nova de Lisboa (since 2012)

Associate Professor (part-time) in Department of Public Health of Faculty of Medical Sciences, Universidade Nova de Lisboa (since 2013)

Director of the Master in “Health and Development”, Institute of Hygiene and Tropical Medicine, Universidade Nova de Lisboa (since 2012-2015)

Member of the Scientific Committee of Doctoral Program “International Health” (since 2011)

Coordinator of Migrants Health Group of the Research Laboratory “Centre for Malaria & Tropical Diseases” (2011-2014)

Coordinator of Migrants Health Group of the Research Laboratory “Centre for Malaria & Tropical Diseases” (since 2010)

Invited Assistant Professor (part time) in Department of Public Health of Faculty of Medical Sciences, Universidade Nova de Lisboa (2007- 2011)

Director of the Master Health and Development, Institute of Hygiene and Tropical Medicine, Universidade Nova de Lisboa (2007-2010)

Assistant Professor at Institute of Hygiene and Tropical Medicine, Universidade Nova de Lisboa (2006 -2012)

Senior Researcher-Project Coordinator of “Sexual and Reproductive Health in an Immigrant Community”, Institute of Hygiene and Tropical Medicine (2000-2002)

Coordinator of the courses “Health Promoters” and “Cultural Mediators for Health” for the Plan of Intervention in Maternal and Child Health and Family Planning in migrant communities (1999-2000)

4. SCIENTIFIC/ RESEARCH INTERESTS: Research and intervention projects concerning health promotion and disease prevention, mainly in sexual and reproductive health, sexual behaviours, HIV prevention, health of vulnerable groups, migrants’ health, health status and use of health care services and behaviour change. The research activities mainly aimed to identify health needs of vulnerable populations, as migrants and refugees, and the political, social, and behavioural determinants, involving communities in the process of health improvement through culturally relevant ways of change. It also includes the conceptual and methodological development in research and intervention with vulnerable populations, using community-based participatory research, combining quantitative and qualitative methods, promoting exchange of information and a basis for comparative studies.

5. TEACHING ACTIVITIES

Participated in the structuring and implementation of the academic programs, being involved in the development of postgraduate programs (Masters and PhD), supervisions, short courses and training at national level and in Portuguese speaking African countries. Participated actively in the restructuring of the Master and PhD courses for the adaptation of curricula to the 2nd and 3rd cycles, respectively, according to the Bologna process. Collaborated in the development and implementation of new short courses and distance learning (organization of modules in e-learning), development of teaching materials, as well as in dissemination, recruitment and selection of new students of the 2nd and 3rd cycle.

Coordinator of Curricular Units:

- Doctoral Degree in International health (Health Promotion; Health Determinants, Qualitative methods in health research; Health of vulnerable groups), Instituto de Higiene e Medicina Tropical, Universidade Nova de Lisboa.
- Master in Health and Development (Health Promotion; Qualitative methods in health research; Health of vulnerable groups; Behaviour change), Instituto de Higiene e Medicina Tropical, Universidade Nova de Lisboa.
- Medical Degree (Participation on the course: Public health), Faculdade de Ciências Médicas, Universidade Nova de Lisboa. (2006/2008; since 2013)
- Doctoral Degree and Master Degree in Public Health (Course: Qualitative methods in epidemiology), Faculdade de Medicina da Universidade do Porto. (since 2007/2009)
- Master in Desenvolvimento, Diversidades Locais e Desafios Mundiais (Course: Development and Health), Instituto Superior de Ciências do Trabalho e da Empresa (2007/2010)
- Master in Community Psychology (Prevention and Community intervention), Instituto Superior de Psicologia Aplicada (2007/2009)
- Degree in Community Development and Mental Health (UC: Development and Mental Health), Instituto Superior de Psicologia Aplicada (2001/2007)
- Psychology of Adolescent Development, School of Education - Instituto Politécnico de Lisboa (2001/2006)

6. PARTICIPATION IN PROJECTS

The scientific activity develops in the areas of Public Health, Health Promotion and Disease Prevention and Health Services Research, in particular on social and behavioural sciences within several diseases - themes related to Health of Vulnerable Populations, HIV/AIDS, Sexual and Reproductive Health, Use of health-care services and Community Intervention for Social and Behavioral Change in contexts of cultural diversity.

The cooperation with Portuguese-speaking countries has been done in terms of training of health professionals, master and PhD students as well as the development of research projects in the scientific area of interest.

She has been working (several as principal investigator) in international and national projects (have participated in 27 research and intervention projects). Projects (some examples):

- “SIALON: Capacity building in combining targeted prevention with meaningful HIV surveillance among MSM”. Work Package Coordinator “Evaluation of the project” (Supported by European Commission).
- “HIV and other STIs among migrants’ communities”. Project Coordinator. (Supported by National AIDS Program/ Directorate-General of Health, Ministry of Health).
- “EUROSSUPPORT 6: Developing a training and resource package for improving the sexual and reproductive health of people living with HIV/AIDS”. National Project Coordinator (Supported by European Commission).
- “Attitudes and health and disease’s representations and access to health care in immigrant populations: towards migrant -friendly health services”. Project Coordinator. (Funded by Foundation for Science and Technology, EMI / SAU - ESA / 81760/2006).
- “PREVIH: HIV/Aids infection among Men who have Sex with Men and Sex Workers - Prevalence, Determinants and Interventions for Prevention and Access to Health. Project Coordinator. (Supported by National AIDS Coordination, Ministry of Health)
- Coordenadora do projecto "Knowledge, attitudes and practices related to HIV infection and access to health services for immigrant populations". Project Coordinator. (Funded by the National Coordination for HIV / AIDS Infection - High Commissioner for Health).
- “A Multilevel analysis of the determinants and regional variations of HIV infection in Mozambique: evidence from the INSIDA and considerations for future research” (Supported by The Luso-American Development Foundation).
- “Integrated Project to Malaria Control Program in Chókwè Region”. Responsável pelo desenvolvimento do estudo de linha de base, estudo KAP, envolvendo a utilização de metodologias quantitativas e qualitativas, no projecto internacional (Supported by European Commission).
- EUGATE - Best practice in access, quality and appropriateness of health services for immigrants in Europe (Supported by DG SANCO, European Commission) (Coordination by the London School of Medicine, Queen Mary College, University of London)
- AMAC – Assisting Migrants and Communities: Analysis of Social Determinants of Health and Health Inequalities (Supported by DG Health and Consumer Protection, European Commission) (Coordination by the International Organization for Migration (IOM)
- “Prevention of Sexual and Gender Based-Violence among refugees, asylum seekers and unaccompanied minors in the EU reception & asylum sector” (Supported by European Commission).

7. CONSULTANT ACTIVITIES

- TDR/ World Health Organization: Member of “The Scientific and Technical Advisory Committee” of Special Programme for Research and Training in Tropical Diseases.
- Several missions in Portuguese-speaking countries (Mozambique, Cape Verde, Guinea-Bissau, Angola) as consultant for international institutions, as World Bank, UNIFEC, WHO, in the area of public health, such as trainers training, development of baseline studies for

monitoring and evaluation (experience in quantitative and qualitative methodologies), development of different educational and teaching materials. Has experience in consulting for some international organizations.

- Participated as an expert in several scientific meetings promoted by international organizations such as World Health Organization, the European Centre for Disease Prevention and Control, International Organization for Migration and academic institutions, as Prince Leopold Institute of Tropical Medicine, Robert Koch Institute, Institute of Population and Public Health, Canadian Institutes of Health Research, among others.
- Over the past 10 years, within international research networks has participated as member of the Steering Committee of several projects and numerous scientific meetings for the discussion of methodological issues and presentation of reports on results obtained by the Portuguese team.
- Member of ISCH COST Action IS1103: Adapting European health systems to diversity (ADAPT; Chair of the Action: Prof David INGLEBY).
- Member of the Steering Committee of the European Public Health Association (EUPHA) Section on Migrant and Ethnic Minority Health.

8. PUBLICATIONS

Published 21 books and book chapters (authored or coauthored), more than 70 scientific publications in international and national peer review journals, and several technical reports.

a) Selected Peer-reviewed publications in scientific journals (last 5 years)

Dias S, Gama A, Pingarilho M, Simões D, Mendão L. (2016). Health Services Use and HIV Prevalence Among Migrant and National Female Sex Workers in Portugal: Are We Providing the Services Needed? *AIDS Behav.* DOI:10.1007/s10461-016-1511-x

Teixeira, A.F & **Dias, S.F.** (2016). Labor market integration, immigration experience, and psychological distress in a multi-ethnic sample of immigrants residing in Portugal. *Ethnicity & Health*, dx.doi.org/10.1080/13557858.2016.1246421

Gama, A., Abecasis, A., Pingarilho, M., Mendão, L., Martins, M.R.O., Barros, H., & **Dias, S.** (2016). Cruising Venues as a Context for HIV Risky Behavior Among MSM. *Archives of Sexual Behavior*. DOI:10.1007/s10508-016-0707-5

Almeida, L.M., Costa-Santos, C., Caldas, J.P., **Dias, S.**, & Ayres-de-Campos, D. (2016). The impact of migration on women's mental health in the postpartum period. *Revista de Saúde Pública*, 50, 35.
